

RGB Globes

Also known as Spheres, Minleon RGB Globes hang in the air, on a tree or staked to the ground in a garden setting. Run up to 20-45 Globes on a single power supply.

Features:

- Full color-changing, 12-bit RGB-LEDs
- IP65 rated for outdoor use when ground mounted
- Working temp: Neg-15 deg. to Plus+50 deg C
- Five sizes, see specs below
- Compatible with Minleon controllers & accessories
- Polyethylene material
- Includes Globe T-way to connect multiples
- Spacers available to hang Globes at different heights
- Stakes & ground mount available
- White, green or black wire options
- Minleon RGB controller needed to operate
- 24-volt DC power
- 12-month warranty

Specifications:

Dia. in mm	Dia. in inches	# of RGB-LED's	Wattage	Current	Max. # on 24VDC/4Amp power*
250	9 7/8	20	1.8	0.075 Amps	45
300	11 3/4	24	2.5	0.10 Amps	35
350	13 3/4	28	2.8	0.115 Amps	30
400	15 3/4	32	3.5	0.15 Amps	24
500	19 3/4	32	3.5	0.15 Amps	24

*Accounts for Voltage Drop & 5-foot spacers. If using longer spacers test for reliability.
